

Experiment 10

cloning of VM

EXPERIMENT-10

create a cloning of a VM and test it by loading the previous versions of cloned VM?

Aim:- To create a cloning of a VM & test it by loading the previous versions of cloned VM

Procedure:-

1. Install the Oracle VM Virtual Box
2. Click machine from Oracle VM 'Box' management.
3. Select clone in the machine tool
4. Open clone VM & asked to choose name & optionally a folder for the new VM
5. The new machine will be clone of the machine name.
6. Click next It gives the option to choose the type of clone we wish to create.
→ full clone ⇌ linked clone
7. Select full clone and do finish

Result:- Hence a cloning of a VM and test it by loading the previous versions / cloned VM.
